Software Developer

Bangalore, IND • +91 9732386292 • [jisangayen@gmail.com](mailto:jisangayen@gmail.com) • [github.com/jisangayen](https://github.com/jisangayen) • [linkedin/jisangayen](https://linkedin/jisangayen) • [Portfolio](#)

## Summary

I am a Software Developer with over one year of experience building scalable full stack applications using the MERN stack. I design responsive user interfaces and develop secure REST APIs. I focus on performance and write clean, maintainable code to deliver reliable, production ready solutions that improve user experience.

## Experience

Ausumn Team Online Services Pvt. Ltd – [roofexplore.in](#)

Bangalore, Karnataka, IND

Software Developer

11/2024 -Present

- Developed and optimized full stack features for the live production platform [RoofExplore.in](#), delivering scalable and reliable solutions using the MERN stack.
- Designed and implemented a comprehensive admin dashboard to efficiently manage properties, users, and overall platform operations.
- Built the entire user interface from scratch, ensuring a clean, responsive, and consistent experience across all core modules.
- Designed and developed the complete Post Property form with a structured layout, smooth validation, and seamless integration with the backend.
- Integrated secure authentication and authorization to ensure safe access control for users and administrators.
- Tech Stack:** React (Vite), Express.js, MongoDB, REST APIs, Tailwind CSS, State Management, Authentication & Authorization.

## Skills

**Frontend:** React.js JavaScript TypeScript Redux Toolkit React Query ·HTML5 CSS3 Tailwind CSS ·Bootstrap

**Backend:** Node.js Express.js REST APIs Authentication Authorization

**Database:** MongoDB

**Tools:** Git GitHub Postman VS Code GitHub Copilot

## Projects

Doctor Appointment Booking System

[Live Demo](#) [GitHub](#)

01/2021

- A web application for booking doctor appointments that includes secure login, registration, and real-time management features
- Developed a secure web application enabling users to register, log in, and book doctor appointments
- Implemented JWT-based authentication and authorization to ensure secure and personalized access
- Built a fully responsive user interface using React.js and Tailwind CSS, improving usability across desktop and mobile devices
- Designed and integrated REST APIs with Node.js and MongoDB to enable smooth data flow and real-time appointment management
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, GitHub, VS Code, Postman.

## Education

Meghnad Saha Institute of Technology

Kolkata, WB, IND

B.Tech in Computer Science and Engineering

03/2021 - 07/2024

CGPA: 7.9/10

## Certifications & Courses

MERN Full Stack Web Development Training | Apna College

[View Certificate](#)

- Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js by building full-stack web applications.
- Designed and developed RESTful APIs for authentication, CRUD operations, and structured data handling.
- Implemented secure backend architecture with role-based access control and efficient data handling
- Worked with MongoDB Atlas and Mongoose for database design, schema validation, and optimized queries.
- Technologies Learned:** HTML, CSS, React.js, Node.js, Express.js, MongoDB, SQL, Tailwind CSS, GitHub, Postman
