

JISAN HOQUE GAYEN

Full-Stack Developer | MERN Stack | React & React Native

Bangalore, Ind +91-9732386292 | jisangayen@gmail.com | github.com/jisangayen | linkedin/jisangayen | www.jisan.in

Summary

Software Developer with 2+ years of experience in building scalable, end-to-end applications. Proficient in **React.js** for responsive web interfaces and **React Native** with **Expo** for cross-platform mobile development. Strong expertise in backend architecture, secure API design, and database optimization. Focused on writing clean, maintainable code and delivering high-performance, user-centric solutions

Skills

Frontend: React Native, React JS, JavaScript, TypeScript, Redux Toolkit, React Query, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Development

Database: MongoDB

Tools & Technologies: Expo, Git, GitHub, Postman, Vite, npm, API Integration

Concepts: State Management, Authentication & Authorization, Responsive Design, Component-Based Architecture

Experience

Ausumn Team Online Services Pvt. Ltd – roofexplore.in

01/08/2024-present

Bangalore, Karnataka, IND

Mobile Development (React Native & Expo)

- **Cross-Platform Architecture:** Built cross-platform mobile applications using **React Native and Expo** with reusable component architecture
- **Performance Optimization:** Delivered responsive layouts and optimized assets to ensure smooth 60fps performance and fast load times on both iOS and Android devices.
- **Native Integration:** Implemented mobile-specific UI patterns and integrated frontend screens with backend REST APIs for consistent data synchronization.

Web Development (React & MERN)

- **Feature Engineering:** Developed and maintained end-to-end full-stack features for the live production platform, focusing on enhancing application scalability and performance.
- **Admin Ecosystem:** Architected a comprehensive **Admin Dashboard** to streamline platform operations, enabling centralized management of users, property listings, and system analytics.
- **Advanced Search & Discovery:** Built a sophisticated property search and filtering engine, allowing users to query the database using multiple criteria for a personalized experience.
- **UI/UX Excellence:** Utilized **Tailwind CSS** to build highly responsive, pixel-perfect web interfaces that ensure a seamless experience across all desktop and mobile browsers.

Backend & Real-Time Systems

- **Real-Time Communication:** Developed a low-latency **Chatbot system using Socket.IO**, facilitating instant, bidirectional communication between users and the platform with live message updates.
- **Security & Auth:** Implemented robust user authentication and authorization flows (Sign Up/Sign In) featuring secure credential handling and server-side validation.
- **API & Database Design:** Designed and integrated **RESTful APIs** with **Node.js/Express**, optimizing data flow between the client-side and **MongoDB** for high-concurrency environments.
- **Listing Management:** Built complex CRUD modules for property and project management, empowering both admins and users to manage listings with high efficiency

Projects

Doctor Appointment Booking System

[Live Demo](#) [GitHub Repo](#)

- A web application for booking doctor appointments that includes secure login, registration, and real-time management features
- Developed a secure web application enabling users to register, log in, and book doctor appointments
- Implemented **JWT-based authentication** and **authorization** to ensure secure and personalized access
- Built a fully responsive user interface using **React.js** and Tailwind CSS, improving usability across desktop and mobile devices
- Designed and integrated **REST APIs** with **Node.js** and **MongoDB** to enable smooth data flow and real-time appointment management

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, GitHub, VS Code, Postman.

Education

Meghnad Saha Institute of Technology

Kolkata, WB, IND

B-Tech in Computer Science and Engineering

03/2021 - 07/2024

CGPA: 7.9/10

Contai Polytechnic

Kolkata, WB, IND

Diploma in Computer Science and Engineering

03/2018 - 07/2021

CGPA: 7.9/10

Certifications & Courses

MERN Full Stack Web Development Training | Apna College

[View Certificate](#)

- Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js by building full-stack web applications.
- Designed and developed RESTful APIs for authentication, CRUD operations, and structured data handling.
- Implemented secure backend architecture with role-based access control and efficient data handling
- Worked with MongoDB Atlas and Mongoose for database design, schema validation, and optimized queries.

Technologies Learned: HTML, CSS, React.js, Node.js, Express.js, MongoDB, SQL, Tailwind CSS, GitHub, Postman
